

**GADSDEN STATE COMMUNITY COLLEGE  
DESIGN OF INTERSECTION IMPROVEMENTS AND SIGNALIZATION  
RFP**

**Pursuant to Alabama Act No. 2001-956**, Gadsden State Community College seeks proposals from qualified engineers licensed in the State of Alabama to consult with the College in the design and cost analysis of intersection improvements and signalization to improve the Korner Street and George Wallace Drive intersection.

**Qualification:** Applicants will be selected on the basis of professional qualifications and successful experience on similar projects. Applicant firms must clearly demonstrate specialized expertise, resources, and experience in the survey and design of intersection improvements. Applicants must demonstrate a successful performance record of projects similar in nature, scope and complexity.

**Project Description:** The consultant will provide for the surveying, designing and cost analysis of intersection improvements and signalization at the intersection of Korner Street and George Wallace Drive in the City of Gadsden, Alabama.

**Project Scope:**

- Recommendations for intersection improvements and any work required for the intersection improvement.
- Design of a drainage control plan in accordance with applicable standards.
- Design of a traffic control plan in accordance with applicable standards.
- Coordination with city, state, and local representatives for reviews, comments and permits.
- Field survey and topography of the area required for the designing of the project. This shall include, but is not limited to: utilities, right-of-way, easements, and other features that will potentially impact the construction of the project.
- Development of preliminary plans, right-of-way plans, signalization plans, and final construction plans in accordance with Alabama D.O.T. standards.

Gadsden State Community College is a multi-campus, public, open-door comprehensive two-year community college located in Northeast Alabama. Gadsden State Community College is comprised of six campuses located in Etowah, Calhoun and Cherokee counties in Alabama. The College is under the control of the Alabama State Board of Education and is one of the largest community colleges in the State of Alabama. The College has about 8000 students. Interested parties are welcome to visit the college's website at [www.gadsdenstate.edu](http://www.gadsdenstate.edu) to obtain general information regarding the College, our programs, and services.

A meeting will be held on August 9, 2011, 2:00 PM at 1001 George Wallace Drive, Browder Hall Auditorium, Gadsden, Alabama for any interested person(s). The purpose of this meeting is to explain college expectations and to answer questions prior to submission of proposals. Applicants must notify Gadsden State by letter of interest and give their general qualifications using Standard Form (SF) 330. Applicants must also include resumes of managing Engineer and proposed design team for this project, copy of license, copy of liability insurance, and references from prior clients on similar projects completed within the last five years. Ten (10) copies of documents clearly marked "Engineering Services Submittal" must be submitted by 10:00 AM, August 15, 2011 to:
